

Sophia Martinez

Senior Database Administrator & SQL Specialist

Email: sophia.martinez.db@example.com | Location: Phoenix, AZ

PROFESSIONAL SUMMARY:

Database Administrator with 6+ years of experience optimizing relational databases, designing high-availability database architectures, tuning complex SQL queries, and automating database backups and migrations.

AREAS OF EXPERTISE:

- Databases: PostgreSQL, MySQL, Oracle DB, SQL Server, Redis
- Database Operations: Query Optimization, Index Tuning, Replication, High Availability, Disaster Recovery, Backup
- Scripting & Systems: SQL, PL/pgSQL, Python, Bash Scripting, Linux System Administration
- Data Engineering: Schema Design, ETL Data Pipelines, Data Migration, Database Security

EXPERIENCE:

Lead Database Administrator | DataVault Tech (2021 – Present)

- Administered 50+ enterprise PostgreSQL and MySQL production database clusters.
- Optimized query execution plans, indexing strategies, and table partitioning.
- Automated daily backup procedures and failover routines using Python and Bash scripts.

Database Analyst | CoreTech Systems (2018 – 2021)

- Monitored database health, query latency, and connection pooling.
- Designed relational schemas and managed data migrations across staging and production environments.

EDUCATION:

- B.S. in Information Technology, Arizona State University (2018)
